

## SoC – Technical / Design Specialist - Edinburgh

Eden Scott, working on behalf of ISLI is seeking applicants for the key hire of a SoC Technical / Design Specialist. This role will suit an individual with significant experience in electronics design, but who relishes the prospect of new and diverse technical challenges. Our client will offer a variety of technical engagements and projects ranging in duration from a week to a number of years. You will be situated in a modern and open plan office environment with access to dedicated IT support staff and all of the latest design platforms.

### Typical skills / knowledge:

- Experience of Cadence design tools and all stages of front end design from system specification through to floor planning is essential
- Ability to design at the PCB level from specification, through schematic capture is highly advantageous. An ability to follow through to full layout on occasion would also be advantageous
- Experience of consumer products, RF connectivity standards, silicon MEMS or video/audio processors would also be beneficial
- Must possess strong technical project management skills at senior level in order to maintain customer relationships whilst managing deliverables and budget costs
- Excellent written and verbal communication skills and the ability to present complex technical issues in a clear and concise manner is essential
- Successful candidate should have a solid grasp of VHDL or Verilog, and ideally, SystemVerilog; along with experience of embedded system debugging, electronic systems modeling and system level verification using Cadence or Synopsys tool flows
- ASIC prototyping experience with FPGAs (Xilinx or Altera) and hardware/software co-design is desirable

The ideal candidate will be an experienced engineer coupled with a Degree in Electronics Engineering (or equivalent experience). A post graduate qualification would be a significant advantage. You should also have extensive commercial experience in design of SoC or complex VLSI devices is required for this post

**For further information on this vacancy, please contact Craig Jackson at Eden Scott Limited on 0131 550 1124 or email [craig.jackson@edenscott.com](mailto:craig.jackson@edenscott.com)**

**PLEASE ALSO NOTE ALL DIRECT AND THIRD PARTY APPLICATIONS WILL BE REDIRECTED TO EDEN SCOTT**

This position may be just one of numerous opportunities we are handling that you could have an interest in pursuing. If you have not been in touch with us before please call us on 0131 550 1100 or drop off a CV at [info@edenscott.com](mailto:info@edenscott.com) and we will make sure the most relevant Consultant gets back to you as soon as possible. Please note that we never send CVs anywhere without your prior consent.

Please note that only candidates with relevant EU/UK working visa will be considered.
