

LFoundry Design Challenge 2009, UK/Ireland

- **Purpose:** promote Analog Mixed Signal design in Europe with the aim to make Europe the Analog Mixed Signal global centre of excellence
- **Motivation:** The selected designs will be awarded free of charge silicon, reticles & design support to facilitate the new design to be taken from conception to a pre-production level
- **Theme for 1st event:** European Analog/Mixed Signal Design Innovations promoted through LFoundry's High Performance LDMOS RF and HV Technology

- Next steps
 - **22.10.09 afternoon in Xilinx, CityWest Campus, Dublin, Ireland (after AMS event)**
