

Regional IET Networking Dinner

(An evening meal with after dinner talk, optional overnight accommodation and then a technical visit the next day)

*Speaker: Wing Commander Andy Green OBE BA RAF Driver
Bloodhound SSC*

This event consists of the following:

- An evening meal (black tie)
- Talk about BLOODHOUND SuperSonic Car.
- Optional overnight accommodation.
- A technical tour of Salisbury Cathedral.

Evening Meal - This will provide an excellent networking opportunity for all.

Talk about Bloodhound SuperSonic Car - The BLOODHOUND SuperSonic Car (SSC) aims to exceed the incredible target of 1000 mph. This project, linked through a major education programme into schools across the country, aims to inspire the next generation of young engineers and scientists, while setting the most remarkable Land Speed Record of all time.

Salisbury Cathedral Tour - Salisbury is unique amongst medieval English cathedrals, built within one century with no substantial later additions. The building itself is remarkable, a testimony to the faith and practical skills of those who erected it. Tour to start at 13:15 on the 2nd October 2010.
